

Rocky Ripple Flood Protection – Meeting on Final Floodwall Options
Thursday, 06-Sep-2018 at 7 pm
Butler University Gallahue Hall Room GH-108

Dear Rocky Ripple Resident,

The Rocky Ripple Town Council continues working with city and state legislators to ensure there is flood protection for Rocky Ripple. We are pleased to announce that the final flood protection options for our local Rocky Ripple flood wall have been prepared and the report is now available. Two of the potential options allow for saving every house in Rocky Ripple and will meet FEMA certification requirements.

These solutions will be presented at a special meeting to be held at 7 pm on Thursday, September 6, 2018 at Butler University Gallahue Hall Room GH-108. The meeting will be hosted by the Rocky Ripple Town Council, with Butler University, City of Indianapolis DPW and AECOM representation present. Please attend so that you can understand the options and can ask any questions you may have.

BACKGROUND: Based upon requests from Rocky Ripple and surrounding areas, the City of Indianapolis initiated an independent review of flood protection initiatives by a national engineering firm unaffiliated with the Army Corps of Engineers. This company, AECOM, recently completed a final report of protection options. The report is available on the City of Indianapolis DPW website for review. The link below will take you directly to it:

<http://www.indy.gov/eGov/City/DPW/StormWaterProgram/Documents/Rocky%20Ripple%20Geotech%20Eval%20and%20Alt%20Dev%20Report%20Full%20Final%20Draft%207.31.18.pdf>

Sincerely,
Carla-Gaff-Clark Jill Morris Mandy Redmond

Meeting Location: Parking available in the Sunset Avenue Garage, 4600 Sunset Ave., Indianapolis, IN 46208. Gallahue Hall is located west of the parking garage.
